

FIFE Meeting

Lisa Goodenough

11th November 2021

Agenda

- **News**
- **dCache talk by Dmitry Litvintsev**
- **AOB**

News

- **We have a new FIFE wiki page.**
 - <https://fifewiki.fnal.gov>
 - configured to require login via SSO with a SERVICES account
 - currently blank but I will start populating
- **Token Task Force is in full swing.**

Token Task Force Generalities

- **We have a mailing list for this group, token_task_force@listserv.fnal.gov**
 - If you would like to subscribe, send an email to listserv@fnal.gov with an empty 'Subject' line and the following in the body of the email: "subscribe token_task_force"
- **The meetings are listed on Indico on the FIFE page: <https://indico.fnal.gov/category/722/>**
- **We have a Slack channel, [fife-token-task-force](#), in the FNAL Computing workspace**
- **Documents will be placed on the FIFE wiki page. We currently have these:**
 - a Google doc with instructions for testing token setup here: [Testing Instructions](#)
 - and a Google sheet for recording testing progress, issues, requests, questions: [Task Force Progress and Issues](#)
- **Meetings are ~every other week on Wednesdays from 1-2pm. Next meeting is November 24th (if there are enough people around that day).**

Progress of Token Task Force

- Scope has expanded from discussions with experimental representatives to include service providers.
- We have had three meetings thus far. Most recently, Dave and Mine gave a talk on Token Authentication Background (the why's and how's of tokens)
- Token Issuers have been set up for Dune, DES, gm2, Mu2e and SBND - dCache has been configured for these VOs
- Experimental reps have been given instructions on the basics of tokens: how to get one, how to access storage with one, automated usage of tokens from cron
- Initial testing has been done
